Community Center Daytime Savings Pass

Park Ridge, IL – At the October 18, 2007 Park Board meeting, commissioners passed a revision to the Community Center’s current membership roster. Board President, Marty Maloney proposed a Daytime Savings Pass effective immediately. Added to the comprehensive list of membership options, the Daytime Savings Pass will allow residents to purchase an individual yearly pass for \$200 that is valid for the entire facility from 9 AM to 3 PM Monday through Friday. (This breaks down to approximately \$.55 a day). Current members will pay the new rates at the time of their renewal.

The Park District believes this addresses the needs of those individuals such as our seniors who only use certain activities of the facility during these hours. It also permits local moms and dads to use the facility on a limited basis to fit their family schedules.
